Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

> A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color

with the gloss and freshness of youth.

Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

PURVEYOR BY APPOINTMENT TO

THE BRITISH COLONIST. Tuesday Morning, May 3, 1870. The Dominion Tariff. On the 6th April the Finance Minister, Sir Francis Hincks, brought down his Budget and unfolded his financial scheme in a speech of great length and remarkable for its lucidity and ability. On the following night Sir Francis ins troduced his tariff resolutions, and the Government took possession of the telegraph wires for the purpose of con veying to their officers the necessary instructions for carrying out the prof visions of those resolutions, which took effect on the following day. The changes in the tariff of customs proposed by the resolutions are by no means inconsiderable, and as the subject is one which now possesses peculiar interest in this colony, we cannot do better than show how the new provisions compare with the old. The specific duties on borses of \$15 per head, on horned cattle of \$10, per head, on swine of \$2 per head, and on sheep of \$1 per head, are repealed, and a duty of 10 per cent. ad valorem is imposed, except in the case of animals imported for the improvement of stock, which are to be admitted free of duty. which are to be admitted free of duly, under the usual regulations. Under the previous tariff the duties upon cigars were, Value over \$10 per M. \$3 per M.; over \$10 and not over \$20, \$4 per M.; over \$20 and not over \$40, \$5 per M.; over \$10 see and M. over \$10 see a M.; over \$40, \$6 per M. Now they are subject to a uniform duty of 45 cents per pound. On spirits and strong waters, such as brandy, gin, whisky, spirits of wine, alcohol and other liquers spirits of wine, alcohol and other induces of the strength of proof of Sykes' Hyadrometer, the duty under the previous tariff was 80 cents per gallon; on cordials \$1 20, on perfumed spirits \$1 20, on tinctures 63 cents per gallon. Under the new tariff spirits and strong waters remain the same; while other spirits sweetened to such an extent as to defeat the usual proof, also bitters and unenu-merated articles of all kinds of the liquid class fall under the common rate of \$1 20 per gallon. Medicated waters, 20 cts. per gallon. Manufactured tobacco, (ex-cept cigars) including snuff, which formerly bore a duty of 5 per cent. ad valorem, and a specific duty of 15 cents per pound is now charged with 12½ per cent, ad valorem, and a specific duty of 20 cents per pound. Wines of all kinds are raised from an ad valorem duty of 20 cents per pound. 20 per cent. to 25 per cent., the specific duty of 10 cents per gallon remaining the same, five quart or ten pint bottles to be rated a gallon. To the free list under the previous tariff the following articles are added, viz:—Book-binders'
Mill Boards and Binders' Cloth; Iron wire, and Brass in strips, Iron in blooms and billits, not puddled. The follow-ing articles are struck out of the free list ad valorem, viz: Straw, Fire Engines, when imported by Municipal Corporations, Machinery, when used in the original construction of mills or factories (not including when used ateam engines, boilers, water-wheels or turbines), gold and silver leaf, emery paper, emery cloth, sand paper, sand cloth and platers' leaf. These articles are now liable to a duty of 15 per cent advalorem. The previous tareff provided that 'packages of every description in which goods are usually imported, and cases covering casks of wine or brandy in wood, and cases containing bottled wine or bottled spirits or other liquors, shall be free? The new turiff substitutes the following: 'The value for day of goods on which an ad valorem duty of customs is imposed, imported into Canada by sea, shall be the actual value of such goods on ship-board at the last place of their shipment to Canada, and the value of such goods for daty, if imported from the United States by land or inland navigation, shall be the actual value of such goods at the place at which they are purwhence they are directly conveyed without change of package to Canada, and such value shall be ascertained by adding to the value of such goods at the lace of growth, production or manufacture, cost of transportation, whether by land or water, and of shipment and trensshipment, with all expenses included from the place of growth, produc-tion or manufacture to vessel in which shipment thereof is made to Canada, or to the place where the goods are manufactured in the United States and whence they are directly conveyed to Canada as aforesaid, and including also the value of any box, case, sack, package or covering of any kind in which such goods are contained, and all export duties on such goods and all costs and charges incurred in placing such goods on shipboard or in vessel, car or carriage in which they are conveyed to Canada. The following new duties are impored • Coal and coke per ton 50c. Salt— except salt imported from the United Kingdom or any British possession, which shall be free of duty—per bushel which shall be free of duty—per rushel of 56lbs 5c. The Firemen's May-Day Parade.

Old Boreas held high carnival yesterday and broke through every rule of propriety that ought to govern his conduct in and enlightened country such as ours ; but his boisterous conduct—albeit it kept the fair sex within doors—did not deter the boys in red from turning out and presenting, with their trim uniforms and nicely polished machines, a splendid appearance. Amidst clouds of dost and sand which entered as uniquited guests into the eyes, noses, mouths and ears of the firemen, the companies formed on Government street. Early in the day the Governor had written down to say that an toveroor had written down to say that an attack of illness rendered a review of the Department by him impossible, so it was decided that the companies should proceed at once to the Council Chambers for inspection and review by the Mayor and Council, Ohief Engineer Kreimler and Assistant Vocal having inspected the apparatus the proget having inspected the apparatus the pro-cession started about 2 o'clock from the corner of Government and Yates streets, the Volunteer Band—which never discoursed sweeter music—the Chief and Assistant Engineers and the Board of Delegates leading off. The Union Hook & Ladder Company, dressed in red shirts and black pants and wearing glazed caps, followed. The truck was decorated with wreaths and lestoons of flowers which none but fair fingers in the angle pretty shapes, could have wrought into such pretty shapes. The Deluge hand-engine and hose-carriage, drawn by the members, uniformed similarly with the H & L Company, followed. Nex came the beautiful new steamer of the Delcame the beautiul new steamer of the Beluge, which looks the very picture of 'good
service,' drawn by two spleadid obestunt
horses. The Tigers with their hand
engins followed. The men were attired in
red shirts and black pants and wore leathers helmets with the name and number of heliasts with the name and number of the company carred upon the front. The beautiful steamer of the Tigers—the works polished till they reflected objects like mirrors—trawn by four spirited horses, came next. Nesting like a fairy beneath a crown of roses sat a little girl, the personification of the May Queen. The hose-carriage of the steamer brought up the rear. Borne in the line were the flags, banners and torches o line were the flags, banners and torobes of the companies, which contributed to the general effect. At the Council Chambers the firemen learned, to their very great regret, that His Worship the Mayor was confined to his bed by an attack of erysipelss. The Firemen were received by Councillors McKay, Carey, Gerow and Walker, who inspected the apparatus. Councillor McKay [as senior Councilor] then addressed the companies, expressing his tus. Councillor McKay las senior Councilor then addressed the companies, expressing his satisfaction at their appearance and state of efficiency, and promising the cordial support of the City Government in all that tended to the advancement of the Fire Department. Councillor Carey also spoke in a congratulatory tone, and Chief Engineer Kriemler replied to the control of the companies then tone, and Chief Engineer Kriemler replied briefly and eloquently. The companies then marched through several of the principal strests, but the number of spectators—owing to the wretched state of the weather—was small, and at about 3½ o'clock the companies returned to the place of sterting and disbands. It is to be regretted that the day was inclement, and it is still more to be regretted that the parade was not postponed until the converse of more favorable weather.

occurrence of more favorable weather. Sr. John's Church .- At the Sunday morn ing service at St. John's Church Rev Mr Jenns, rector, referred to a scandalous and unhappy domestic difficulty which has formed the topic of public conversation for several days and has created a mingled feeling of sympathy and disgust in the minds of all right-thinking persons in a community hitherto happily exempt from such occurrences. be remembered that some four months ago
Mr Jenns delivered a powerful sermson upon Mr Jenns delivered a powerful sermon upon the frivolous and improper conduct of certain members of his congregation; and warned them against the results of their course of conduct if persevered in. On Sunday Mr Jenns referred to that memorable sermon, and Jenns referred to that memorable sermon, and in a voice broken with emotion asked if, in the light of the recent lamentable occurrence —which involved the fall of a hitherto respectable and respected member of the congregation—his remarks were not fully justified? The rev. gentleman then charged that the example of some whom he saw around him had contributed to the downfall of the member referred to, and earnestly asked that the prayers of all should ascend in her behalf. During the delivery of the welltimed and courageous remarks of the rector, much emotion was manifested by those present. In the evening Rev If Alexander, Chaplain of H M S Zealous, preached.

BENEFIT OF MR. J. II. VINSON .- This evening Mr Vinson, to whom our citizens are to a great measure indebted for the excellent class of amusements put upon the stage durclass of amusements put upon the stage during the present season, will take a benefit. In many characters Mr Visson has no superior on the American stage. His Grimuldi we consider the best we have ever seen. The play selected for to-night is one of Bonoioault'e: 'The Willow Copse.' Mrs Bates will assume the character of Rosa Fielding, Miss Mandeville, Meg, Mr Visson, Luke Fielding, Mr Bates, Bill Staggers. PRINCE EDWARD ISLAND .- It is already known that the Government of Prince Edward Island has rejected the 'beiter terms' offered by the Government of Canada. The following is a minute of Council upon the subject :- 'That inasmuch as said terms do not comprise a full and immediate settle-ment of the Land Teaures, and indemnity from the Imperial Government for loss of territerial revenues, the Committee cannot recommend said terms to their constitutents and the public.' A detailed statement of the reasons which have led to these conclusions had been published in the form of a report of the Executive Council to Sir Robert Hodgson, the Administrator of the Gov-ornment, and will, 1t is believed, lead to cor-respondence between the Imperial and respondence between the Imperial and Dominion Governments on the subject of the Island Land Tenure. Our readers with for the most part, know that the public domain of Prince Edward Island nearly a l domain of Prince Edward Island nearly a lell into the hands of a few monopolists. The Island Government takes the ground that it is a matter of Imperial concernment, a view which it is thought the British Government will concur in when the matter properly laid before it, so as to forward that present greatest of Imperial projects—the consolidation of all British North America into one strong, homogeneous whole,

CONDITION OF AFFAIRS IN ALASKA .- Out North Pole neighbors are beginning to realize that all is not glory under the 'Stars and Stripes.' It appears that the order issued from Washington to the effect that no civilians shall be retained in the Government employ in that territory, has plunged many former employes of the Russian Company in dire distress. There are 800 of these Russians at Alaska, and their condition is said to beggar description—surpass the scene-presented during the war at Lioby and Anpresented during the war at Libby and Andersonville. These people being deprived of employment are dying if disease and starvation. All the blame of this and the other ills to which Alaska is heir as laid upon the authorities at Washington. Another grievance, and one over which our contemporary of the Alaska Times apports to be greatly exercised, is the promunation of a decree at Washington foroiding the introduction of spirits into thatterritory. The Indians, says our contemporary, can get all the grog they wan, sod with have it to spite of all the revenue cutters in the United States as long as Great Britain holds British Columbia; as Great Britain holds British Columbia; but the American citizen can't have his glass of wice, and it is suggested, in Ditter frony, that President Grant had better issue anothe decree forbidding the shipment of tea and agar also. Should the Dominion Govern-ment succeed in negotiating the purchase of Alaska, our neighbors may yet have an op-portunity of casting in their lot with us, and then they will not be left out in the cold, with their grog out off.

AN ADVERSE VOTE .- In the House of Commons, March 27th, Mr Newdegate moved for the appointment of a select committee to inquire into the existence, character and increase of conventual and monastic institutions or societies in Great Britain, and into estutes belonging to such institutions, or to members thereof, have been bestowed and possessed. The Solicitor General could see in the growth of the institutions referred to by the hon member no call for the appointby the non member no call for the appointment of a select committee, and with respect to the latter clause of the resolution he pointed out that Roman Catholics were placed by the law of England upon exactly the same footing as Protestants, and that the Government possessed no power to institute such no inquiry as that which Mr Newdegate demanded. Mr Chambers, Mr Aytoun, Sir Herbert Croft, Mr Greene, Mr Kinnaird, and Mr Newdegate having addressed the House, a division took place and the resolution was adopted by 131 votes against 129.

THE News advises the Colonist to study geography. We would advise the News to post itself on current topics of the day and English Grammar. On Saturday it announced English Grammar. On Saturday it announced that the Fire Companies would meet at their respectful houses, etc. Yesterday it stated, with a grand flow of eloquence, that 'To-day turned out very rough for the firemen, notwithstanding which they turned out it: good force.' And further on in the same paragraph it says the firemen were inspected by the 'Mayor and Council!' and then proceeded to their 'respective engine house.' We might point out half-a-dozen equally absurd errors in every number of our cotemporary, but as it is not our practice to descend to trifles we refrain.

LANGLEY SCHOOL DISTRICT. - His Excellency the Governor has, in pursuance of the provisions of the School Ordinance, established and defined the boundaries of the Langley School District, as follows:—Starting on the left bank of the Fraser, at the extreme North-west corner of the Town Site of Derby, thence a right line Southerly. 416 miles; thence Easterly, parallel with the River, 6 miles; thence a right line back to the River and across the Fraser, and also the River and agross the Fraser, and also extending a distance inward of ½ a mile; thence down the right bank of and parallel with the River, as far as Kanaka Creek; thence down said Creek to its confluence with the Fraser, at a point directly opposite the the Fraser, at a point directly oppoold Government Buildings at Derby.

Mr Cyrus W Field, who is the moving spirit in the enterprise, proposes, as a guaranty of the good fatth of the company, to deposit \$100,000 with the Secretary of the Treasury, to be returned on the completion of the cable. the cable.

Accident.-Yesterday Mr Daliy was in the act of placing his photographic apparatus in a wagon on James Bay bridge, when the horse took fright and dashed across the bridge, smashing a valuable glass bath containing 100 ounces of nitrate of silver, which was spilled, besides endangering the life of Mr Dally, who held on to the shafts until the animal was fortunately stopped. The nitrate of silver gave the bridge a sangaineous hue and caused a report that a man had been killed by a reason. report that a man had been killed by a runa-

Interesting Debate in the United States Senate.

Oa the 25th of April, Chandler advocated a resolution claiming that the Provisional government at Winipeg-had shown its right of recegnition by maintaining itself somethat our republic could not countenance the theory of a Dominion on our borders; that the injury inflicted upon the United States by the haste which the British Government made to recognize belligerent rebels, and her spoliations on our commerce during the war, must now be repaired and made good.

Chandler continued at some length in the enforcement of his propositions and closed with a panegyric on the military power of the United States.

Ramsey inquired of the Chairman on Foreign Relations what disposition was made of his resolution similar to the one

now pending.
Summer replied that Ramsey's resoluawaiting official information on which to base its action.

Ramsey thought the subject would soon prove one of great importance. In answer to Howard's question Ramsay said there was no doubt that the Canadian Government was enlisting Indians for service, and the coming conflict threatened to involve other Indians on our frontier. He called attention to the report that the proposed expedition was to proceed by way of Sault St Marie Canal in Michigan.

Howard expressed the saurance that the State of Michigan would not permit the use of the StMarie Qual in furthers ing any military operations of the Brit-ish Government. He had it from authoritative sources that this permission would not be given.

Samner thought the apprehension would prove unfounded: that it was not contemplated by the British Government to use the canal,

MURDEROUS FANATIC. - Our Malta correspondent sends us a letter received from Tunis, dated the 11th st., in which he describes an occurrence which bad occasioned alarm among the residents. A Moor of 22. a Water-carrier while under the influence of religious excitement, began to beat all the Christians and Jews who came in his way. Suddenly he dropped the stick and drew a sword, running with it through the most frequented parts of the town in the European quarter shouting In the name of God war to the infidels! Fortunately, it being about 3 o'cleck, most of the Europeans were in their houses at dinner, but, nevertheless the fanatic succeeded in wounding a great number of mon, women and children. As the British Consulate tlay in the path he took, it was soon filled with the wounded Having passed through the principal streets without receiving more than a slight wound on the leg, he took rotuge in the chief morque where the local authorities, on religious grounds, refrained from arresting him. One of dragomans employed in the British Consulate, however, who had pursued the assassin, entered the sanctuary, arrested him, and gave him over to the local police. The principal square in the European quarter soon became crowded with thousands of Christians, Moors and Jews. The Christians demanded the instant execution of the water carrier, and great fears were en-tertained of a collision occurring between hem and the Manomedans, nately tranquility was restored by the arrival of an extra force of police and troops sent by the Bey at the request of the foreign Consuls. The Bey declined to appear personally in the town to quiet the agitation, but promised that every satisfaction should be given for the outrage. The man was shot at 6 o'clock the same evening. In other letters the number of persons wounded is variously given from 35 to 70. Mahomedans, though friendly to the Christians, were also attacked, and one Moor has since died from a thrust he received from the sword in the back. The drag-oman of the United States' Consul-General was cut down at the door of the Consulate, stogether with the Mah medan servant of the Italian Consul, who happened to be there. The Italiaus threatened to set fire to the European Consulates if the assassin was not immediately executed on the gate of the European quarter, but such a step was considered an indignity to the Manomedan religion, and the execution was inflieted in the Moorish quarter. The body was exposed and identified by the British and Italian Vice-Consuls and a certain number of Europeaus. The summary punishment infliced on the murderer has produced a very good et. lect and no fears are now entertained or any outbreak .- Times.

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapeutics. They must not be confunded with screet or quack me foliaces, as their amos sufficiently indicate their composition; a circumstance which has caused them to be apprescribed by the faculty in the whole world. They widely differ from those nownerous medicines advertised in the public paper as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent saws exist in France, with regard to the sale on medical preparations, and only those which have underforce an examination by the Academy of Medicine, and have been proved efficacious, either in the Hiepitias. or in the practice of the first medical men, are authorized by the Government. This fact must be a guarrance for the excellency of Medicines, Guinauri & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris Physicians. Cures lymphatism, rachitum, scrofuls, congestion of the glands of the neck, paleness and liab-hiness of the flesh, loss of appetite, weakness of consti-tution, the various cruptions on the face, boils, pimoles, tichings,—the the best remedy against the first stage for samption, and t is the most powerful depurative

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruinous preparations of containing Iron and Phosphoreus, which are the elements of the blood, it cures colorosis, pains in the stemach, difficult direct time, dismenorrhes, ansemis, general debility and poorness of the blood, and agrees especially with the mosdelicate stemachs.

LUNG DISEASES.

Grimault's Syrup of Hypophosphite of Lime.

It is the best and the most rational of all remedies against consumption. Under its influence the cough shates, the night sweats cease, and the patient rapidly recovers heath. It gives the same results in cases of coughs, catarrhs, hooping coughs and influenza. In comparing this syrup with the other sold under the same name, it will be easy to recognize the superiority of this preparation. Therefore to avoid any substitution, please to require on the bottle the signature: Grimault and Co.
